

Simulation Ends 3D Printed Fashion

- 3D printable fabric
- Simulation created flexible patterns with varied mechanics

A person with dark hair tied in a bun is seen from behind, wearing a black textured sweater. The word "IMAGINE" is printed in large, bold, red capital letters across the lower back of the sweater. The person is holding the collar of the sweater with their right hand. The background is a bright, out-of-focus window with vertical blinds.

Which is why I created an online store

A person with dark hair tied back is seen from behind, wearing a black, textured knit sweater. The word "IMAGINE" is printed in large, bold, red capital letters across the lower back of the sweater. The person is holding the collar of the sweater with their right hand. The background is a bright, out-of-focus window with vertical blinds, and a blurry object is visible on the left side.
